

## ATHEIST ALLIANCE

MIDDLE-EAST AND NORTH AFRICA

### Abusive Mass Reporting of Atheist Pages in the MENA Region

19-04-2016

A very large number of extremist Muslims have created secret groups with the sole purpose of organizing intensive reporting of standards violations against atheist pages, groups and accounts. It appears that Facebook is not scrutinizing incoming reports to objectively evaluate contents and judge of their compliance with Facebook standards.

More than 50 Arabic-speaking Facebook Pages have been closed, 9 of them during last week only. The “Atheist Alliance – Middle-East and North Africa” (AA-MENA) has launched a [petition](#) demanding Facebook to reactivate the removed pages and to reform its standard procedures for dealing with incoming reports. It is crucial for Facebook to preserve its user’s rights to freedom of expression; reports should be scrutinized and objectively evaluated for incompliance, instead of taking only reports numbers into consideration.

This document compiles the evidence for the abuse being practiced by some Facebook users of the community standards violations reporting system.

The “Atheist Alliance – Middle-East and North Africa” has received the content of this document through some of its members who managed to infiltrate into the secret groups created for abusive mass reporting.
